

R97 | Report revisions and honest forecast timing

8 accepted HASP reports | 246 vintage rows, not independent months | no model promotion

Sources: DOH HASP monthly tables, SHIP posting metadata. R97 s01, 11 September 2026.
Point forecasts only: intervals are not calibrated. Original release dates and historical file bytes are unverified.
Q4 candidates retain R41 stocks but do not establish stock-flow coupling or national/regional/AEM superiority.
